

&inator;: CodeWeaver evidence profile

This profile audits every empirical surface identified for &inator; and records the maximum scientifically defensible CodeWeaver comparison. Status: not_comparable. Interface synthesis is not end-to-end project translation.

Evidence boundary

Paper values and CodeWeaver measurements remain separate unless subject identity, revision, denominator, and fixed oracle are verified. Missing values are not converted to zeros.

Existing result

No separate compatible CodeWeaver result package.

Complete empirical-surface audit

key	surface	denominator	metrics	status
and-inator	Interface grammar/type table	supported C/Rust type forms	ownership, borrowing, mutability, lifetimes	reference_only_not_comparable
and-inator	CRUST-Bench interface evaluation	CRUST-Bench C inputs/interfaces	interface correctness and precision	reference_only_not_comparable

Inclusion and execution decision
