

CNnotator: CodeWeaver evidence profile

This profile audits every empirical surface identified for CNnotator and records the maximum scientifically defensible CodeWeaver comparison. Status: not_comparable. Annotation synthesis is not repository translation.

Evidence boundary

Paper values and CodeWeaver measurements remain separate unless subject identity, revision, denominator, and fixed oracle are verified. Missing values are not converted to zeros.

Existing result

No separate compatible CodeWeaver result package.

Complete empirical-surface audit

key	surface	denominator	metrics	status
cnnotator	Annotation-synthesis evaluation	small/medium C programs	first-attempt and three-attempt CN/Fulminate success	reference_only_not_comparable

Inclusion and execution decision
