

CodeWeaver GPT-5.6 Sol - interim progress

Status at capture

Captured: 2026-08-06T18:44:41.569395Z
Terminal: 310/354 (87.6%)
Completed pipelines: 208
Measured pipeline failures: 102
Timeouts: 0
Actively running: 3
Queued: 41

Frozen protocol

Projects: 118
Repetitions: 3
Model: gpt-5.6-sol
Reasoning effort: max
Primary paper result: repetition 0
Selection: no best-of-three

Released baseline evidence

ReCodeAgent: 117 measured outputs; 1 accounted missing artifact
Prior systems: 18 measured outputs
SWE-agent CRUST: 100 released targets unavailable
Stub CRUST scaffolds were never treated as baseline outputs.

Recovery state

Completed scheduler summaries: 4/7
Pending scheduler summaries: 3/7
Reconciliation and independent collection are queued automatically.

Interpretation warning

INTERIM - NOT FINAL EFFECTIVENESS DATA

Pipeline completion is not a correctness claim. Independent build, fixed-oracle tests, coverage, statistics, exact paper tables, and the final report are generated only after all cells are terminal.
